FACE TREATMENTS

<u>Forlle'd oxiginating facial</u>	45min	From £150
------------------------------------	-------	-----------

This powerful facial treatment boosts the skin's natural defenses and detoxifying process, it oxygenates the skin, improves microcirculation, saturates Vitamin C, and provides immediate anti-inflammatory and brightening effects. It's perfect for those of you living in a busy city where there is a risk of premature aging due to pollution affecting your skin.

Exclusively at Badra Beauty, we combine the treatment with antioxidants and an oxygen device so your skin benefits from a breath of fresh air and feels revived and refreshed.

<u>Forlle'd biofiller facial</u>	75min	From £250
----------------------------------	-------	-----------

Forlle'd platinum treatment is the brand's most powerful, 100% customized facial. Layering bespoke cocktails of nano-molecular ha and high-powered Japanese plant extracts, combined radio frequency and Japanese face lift massage, gua sha, and photon therapy led light this facial directly enhances key cellular processes and naturally stimulates collagen production and skin regeneration for a healthy youthful radiance.

<u>Badra Beauty signature red carpet collagen threads facial</u>	90min	From £280
--	-------	-----------

Exclusively designed protocol for Badra Beauty salon this multi-step anti-aging facial treatment uses topical collagen threads to give you an instant "now you see it - now you don't" approach to fine lines. Multi-technology combination approach addresses all layers of the skin giving you a brilliant solution when your face looks tired or when you want to reduce the expression lines.

OUR MENU

Signature collagen threads zone therapy

30min

From £100

When you are concerned with a specific area on the face and have no time for the full treatment we can address and focus on that zone to get you an instant self-confidence boost.

You can choose the face zone that troubles you the most being the forehead, eyes, nasolabial, or neck. This is an excellent add-on to other facials too if you wish the ultimate results.

Deep cleanse facial

90min

From £180

This all-time classic facial is the one most of us cannot live without. For many reasons our skin gets congested - pollution, genetics, hormones, diet, sweat, and sometimes too heavy skincare can block our pores resulting in congestion and ultimately spots regardless of our age. Consider it as your monthly maintenance skin cleanse including all the traditional steps from steam to high frequency to calming mask at the end. However, we prepare your skin with a unique protocol to make sure the manual extraction of blackheads or whiteheads is easier, and we finish the treatment with led photon therapy to calm your skin before you face the world again.

Ready. Steady. Glow.

30min

From £100

Designed for those with busy lifestyles this face gym facial is like getting your skin a gym workout. It includes our signature face sculpt workout, EMS stimulation and micro-current, a blast of hydration, and a lifting mask while your shoulder/neck tension is massaged away. This speedy face gym session will have you leaving the salon sculpted, glowing and revitalized.

+ RF face lift add on

60min

From £200

Skin consultation

45min

From £50

The ultimate high tech luxury facial

120min

From £350

Badra Beauty has the pleasure to be the first and only clinic in Kuwait to introduce to you the wonderful combination of those 5 modalities in one facial treatment.

Starting with hydro facial water jet and peel to decongest, remove the dead cells and prepare your skin for the actives that follow. Step two is oxygen exfoliation and O2 saturation followed by collagen+ technology of radio frequency collagen stimulation. Making sure we work on all layers of your face for a long-lasting result we address and reposition your muscles up with macro current nonsurgical facelift, and finish with no needle mezzo therapy vitamin cocktail infusion with ultrasound. This super relaxing treatment makes you drift away during the scalp massage under the led photon therapy light while the hydrating mask seals all the moisture in your skin.

You wake up noticeably fresh and hydrated, with visibly sculpted cheeks and face glow like never before.

This treatment is the ultimate skin boost making your skin produce more collagen, elastin, and hyaluronic acid for weeks after the treatment.

For a total skin transformation for ladies 40+, perimenopause or menopause it is advisable to do a course of treatments, so you have an accumulative long-term result of evident skin rejuvenation.

Teen facial

60min

From £150

Your teen probably asks you for a lot of things that seem silly or extravagant, but if they ask you for a professional facial, you may want to take them seriously. Social media is flooded with “perfect images” of retouched and filtered faces which makes teens more self-conscious. They might turn to the internet where YouTube or TikTok videos may be teaching them ineffective or potentially damaging skin care methods such as picking at their skin, popping pimples, and spreading the bacteria.

The number one benefit of booking your teen for facials is the educational factor so it is less about luxury and more about the healthcare benefits.

Our facialists do not just provide the facial and move on. They are trained to help teens learn to care for their skin and will recommend an appropriate home care regimen.

Every teen facial will be uniquely geared toward meeting individual needs and keeping the skin healthy.
